Description

The all new Daelim Daystar 125cc Custom Cruiser is the latest version of this ever popular model. The Daystar is designed to give 125cc riders a genuine "Big Bike" experience, with big bike looks, handling and on the road presence. This is a big bike in every way. The Daystar is a high specification bike, with footboards, chain tensioner and many small styling details all included as standard.

For 2013 the Daystar is available in two colour options, Black/Grey and Black/Orange. These two-tone colour schemes are complimented by Black engines, wheels and forks. This "Dark", unpolished styling completes the mean and moody custom cruiser attitude that is sure to bring out the rebel within!
