Description

The Daelim VL250 Daystar is equipped with a 250cc, four-stroke, four-valve, DOHC, electronic fuel injection engine with liquid cooling. This is the latest version of Daelim's popular 250cc engine that is both powerful and economical. The engine is complimented by a smooth five-speed transmission. High specification twin front disc brake and single rear disc brake ensure optimum stopping power. The Daystar package is very capable in every area.

The Daystar's ergonomic design and dual stepped seat ensure a natural riding position, comfortable even on longer journeys. Large handlebars, low seat height and light weight make the Daystar easy to manoeuvre, especially in traffic. The Daystar is as at home on the daily commute as it is on the weekend meander through the countryside.

The design of the new Daystar is inspired by both modern and classical themes. The modern fuel gauge integrated into the petrol tank, large seat split onto two levels, compact LED tail light and stylish foot pegs offer the very latest style details. These are complimented by classic designs, like the dual exhaust, chrome style air box cover and detailed chrome accents. The cast Aluminium wheels are modern and lightweight, with a multi-spoke design inspired by classical spoke wheel design. Wherever your ride takes you, the stylish Daystar is sure to turn heads.
