Manufacturer: [Daelim](#)

Description

Daelim's S1 is a tough utility scooter with many features normally found on models far above its modest price tag. The S1 has an unparalleled level of equipment in this category. Electronic fuel injection, flat floor, passenger back rest, front and back linked disc brakes, digital instrument panel, large under seat storage area and 12V power point are just some of the highlights.

The modern, powerful and economical EFI engine, large wheels, and front and rear linked disc brake system ensure the S1 will get you around the city quickly, with minimum cost and maximum enjoyment.
